UNLOCK THE POWER OF NATURE COMBINED WITH SCIENCE.

HEMP-FREE MIND AND BODY BALANCE.

Introducing Ultralce

Homeostasis is the scientific name for balance. Ultralce is designed to help you capture the balance that your body desperately needs. By combining our proprietary homeostasis support complex with our breakthrough Mimetix formula, Ultralce delivers hemp-free mind and body balance. Much like cannabinoids, the curcuminoids found in Ultralce have multiple naturally occurring structures. Ultralce is formulated using all three of these forms, also known as three-peak. Research has also proven that three-peak curcuminoids modulate cannabinoid receptors. Using a full spectrum approach to curcuminoids is similar to using a full spectrum hemp oil as opposed to a CBD isolate. Why settle for inferior products that are limited in their scope when you could create an entourage effect of benefits? Ultralce is able to help the body regulate itself more efficiently. Our revolutionary technology allows the ingredients a more dynamic and effective internal delivery. Optimal body function is an elusive goal, but with the help of Ultralce, that balance can be achieved.

The Mimetix™ Formula

Typically, the conversation about the endocannabinoid system (ECS) revolves around phytocannabinoids alone. Mimetix takes ECS health to a whole new level.

Mimetix is our full spectrum complex that includes: phytocannabinoids, terpenes, beta-caryophyllene, alkamides, and cannabimimetics. Cannabimimetics are defined as compounds that have the same pharmacological impact on the ECS as the hemp plant. When combined in a full spectrum, water-soluble format the results are extraordinary.

The System

The endocannabinoid system is ever present in the human body. This complex network impacts many areas of health and is most abundant in the brain and immune system. The ECS has been shown to be integral in body processes such as sleep, relaxation, and cognitive function.. Through the production and use of natural endocannabinoids, the body regulates these systems. When production of those becomes slowed or impaired, cannabimimetics and phytocannabinoids can supplement what the body may be lacking.

Exclusive Technology

As we all know, oil and water don't mix. This can be a challenge when taking oil-based supplements. UltraCell™ turns oil-based compounds into a water-soluble format. Our exclusive technology has been proven in independent clinical study to make oil supplements up to 99 percent bioavailable. Thanks to powerful technology, all of the benefits of Ultralce™ are available to you at peak capacity.
